

AMERICAN FORGE & FOUNDRY

500 LBS HEAVY-DUTY CLUTCH JACK MODEL 3700

- Provides one person operation for removal, installation, and transportation of heavy-duty truck clutches
- Patented clutch head assembly turns 360° and pivots side-to-side for efficient clutch/engine alignment
- Clutch assemblies can easily be built on the vertical shaft and then positioned easily under the truck
- Includes models 3749 (1.75" OD x .983" pilot) and 3753 (2" OD x 1.18" pilot) splined alignment shafts
- Pump handle rotates 360° for ease of operation in any work position
- Unique pinned alignment shaft allows technician to remove jack to install clutch assembly without obstruction
