

Features and Benefits

4015series

15,000 lb. capacity

The Automotive Lift Institute (ALI) certifies that the 4015series Lifts described herein complies with the applicable provisions of the American National Standards ANSI/ALI ALCTV 2006 and are Third Party Validated by the ETL Testing Laboratory.

- ① Provides maximum head room for working underneath vehicles
- ② Allows technician to work at an ergonomic working height to increase productivity and minimize fatigue
- ③ Distribute contact load to reduce column stress for longer product life
- ④ Reduces column deflection and makes lift less sensitive to uneven floors
- ⑤ Disengages all column locks simultaneously

- ⑥ Offer a wider range of 4 wheel alignment capacities and accommodates longer wheelbase vehicles
- ⑦ Minimize undo wear and tear and prolong pulley and cable life
- ⑧ Provide more precise alignment readings
- ⑨ Prevent wheel spin and provide positive vehicle traction and technician safety
- ⑩ Allows easy access for lower profile vehicles
