

# DJ-6000 BRIDGE JACK

SKU 5175326

## DESCRIPTION

### 6,000-lb. Capacity / Rolling Bridge Jack

Dannmar's DJ-6000 rolling bridge jack is built strong and sturdy with a 6,000 lb. lifting capacity. This bridge jack is specifically designed for use with a Dannmar's four-post lift with standard runways and 12,000-lb. lifting capacity. The DJ-6000 provides you with the versatility and added access to raise the wheels off the runways of the vehicle lift.
