40,000 lbs. capacity

Engineering Excellence

Forward's U.S. engineers have over 29 years of combined experience designing automotive lifts for service and repair shops. Forward's philosophy is to own our designs rather than use someone else's off the shelf product.

Product Integrity

21st century design tools allow us to create, control and validate our designs to ensure maximum performance. Forward lifts are rigorously tested to meet quality and durability standards. All product families are proof load tested to 1½ times rated capacity and rigorously cycle tested.

Engineered to perform... Built to last!

CR40

HEAVY DUTY RUNWAY LIFT

Heavy-Duty 40K Four Post Drive-On Lift

The CR40 runway lift is the powerful and reliable lifting system for even the largest vehicles from RVs to commercial trucks. The fully adjustable runways accommodate a variety of wheelbase widths and with a 65" rise height, even a lift with this capacity provides a generous amount of headroom for technicians. Increase service capacity with optional rolling jacks and internal air line. Add drive-thru ramps to provide a quick and easy on-off operation.

40,000 lbs. capacity

Features

- Locking latches in each leg
- 24" wide runways
- Low maintenance
- proven durability
- Alignment designs available
- High capacity rolling jacks available
- Internal Air Line Kit

Available Options:

- Rolling Bridge Jacks
- Drive Through Ramps
- Power Unit Cover
- Mobile Oil Drain Pans
- Single and 3-Phase Motors

Specifications	CR40
Capacity	40,000 lbs. (18411kg)
Maximum Wheelbase	300" (7620mm)
Maximum 2-Wheel Alignment (with alignment kit)	270" (6858mm)
Lifting Height	68" (1727mm)
Overall Length	412" (10465mm)
Overall Width	171" (4343mm)
Width Inside Columns	142" (3607mm)
Overall Height	154" (3912mm)
Runway Width	24" (610mm)
Runway Height	9" (229mm)
Width Between Runways	40" - 82" (1016-2083mm)
Amperage	
208/230v, Single-Phase	40 Amps
208/230v, Three-Phase	25 Amps
460v, Three-Phase	15 Amps
Motor	2 HP X 2
