

FOUNTAIN

Model 9300 Blk Front Load Spray Cabinet

Product Data Sheet

Aqueous Only

Overview

Fountain products are USA designed and manufactured rooted in half a century of expertise building commercial grade equipment engineered for the rigors of industry. Our designs benefit from continuous improvement from modern technologies and materials, valuing the voice of the customer, and a desire to lead and never follow. The 9300 front load spray cabinet is our value-minded mid-size aqueous front load automated spray wash machine with a large 30" turntable with 500 lbs. weight capacity. This machine is configured as a base unit with customer selectable upgrades to mindfully tailor the machine as desired.

Function

High pressure spray paired with detergents and heat remove greases, sludge, dirt, and debris to provide you clean parts with minimal effort.

Spray cabinets are exceptional at surface cleaning, and the washing effect rinses down parts thoroughly.

Application

Industrial Cleaning, Automotive Service/Repair, CNC Fabrication Rinse, Agricultural Fabricators, Agricultural Maintenance/Repair, Power Sports Shops, Government Municipalities, Aerospace, Post Processing, Military Service/Repair

Product Highlights

Modular accessories to configure your machine to your needs.

Advanced heating control with digital thermostat, 7-Day programmable Timer, heater protection

Reliable turntable drive system, slip design incase of turntable jam, low-cost consumable.

Comprehensive safety switch door interlock, low water protection, and UL 1204 certification

**MADE IN THE
USA**
