FluidPRO®

MULTI-FLUID FILTRATION SYSTEM

One machine that can handle a wide variety of industry fluids including hydraulic oil, gear lube, transmission fluid, and engine oil. The CFF-1HD Multi-Fluid Filtration System was designed to be portable, pneumatic, and self-contained for both on- and off-highway applications.

Features

DUAL FILTER SYSTEM.

Removes water and particulates.

PORTABLE.

Easily moveable for on-site or off-site use.

FULLY PNEUMATIC.

No electric connection needed.

FAST.

Filters 44 quarts of engine oil in approximately 5 minutes.

NO MESS.

Patented “spill-free” connection for “no-mess” operation.

DIFFERENTIAL FILTER GAUGES.

Lets you know when your filters need to be changed.
